Etali Signature Treatment

Thlakanya - 2 hours

Steambath - Full body wrap - Facial treatment

Full body massage (Swedish/Hot Stone)

The emphasis at our state-of-the-art spa and wellness centre is on relaxation, de-stressing and re-capturing your body's natural equilibrium through various wellness treatments. Our philosophy on natural health is based on healing, relaxing and rejuvenating body, mind and spirit. The undisturbed peace of the African bushveld allows you to listen to the rhythms of nature, while you surrender to the healing touch of our therapists' hands.

The Etali Spa uses the Pevonia Botanica Skin Care Line's technologically advanced products containing nature's richest, most active resources for nurturing, rejuvenating and restoring the skin's natural beauty. All treatments can be customised for men or women based on personal needs.
